

In the name of Allah, the Most Gracious, the Most Merciful:

The occupation is committing a new massacre today, in Jabalia refugee camp in Al-Faluja area, in less than 24 hours, after a long series of horrific massacres in the Gaza Strip, which will remain a disgrace to humanity and the silent spectating international community.

We renew our call to the Arab and Islamic countries and the remaining conscience of the international community to assume their political and moral responsibility by stopping the criminality of this rogue fascist entity, which with its brutality and sadism has exceeded all limits.
